

§ 130A-221.1. Coordination of diabetes programs.

(a) The Division of Medical Assistance and the Diabetes Prevention and Control Branch of the Division of Public Health, within the Department of Health and Human Services; in addition to the State Health Plan Division within the Department of State Treasurer; shall work collaboratively to each develop plans to reduce the incidence of diabetes, to improve diabetes care, and to control the complications associated with diabetes. Each entity's plans shall be tailored to the population the entity serves and must establish measurable goals and objectives.

(b) On or before January 1 of each odd-numbered year, the entities referenced in subsection (a) of this section shall collectively submit a report to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division. The report shall provide the following:

- (1) An assessment of the financial impact that each type of diabetes has on each entity and collectively on the State. This assessment shall include: the number of individuals with diabetes served by the entity, the cost of diabetes prevention and control programs implemented by the entity, the financial toll or impact diabetes and related complications places on the program, and the financial toll or impact diabetes and related complications places on each program in comparison to other chronic diseases and conditions.
- (2) A description and an assessment of the effectiveness of each entity's programs and activities implemented to prevent and control diabetes. For each program and activity, the assessment shall document the source and amount of funding provided to the entity, including funding provided by the State.
- (3) A description of the level of coordination that exists among the entities referenced in subsection (a) of this section, as it relates to activities, programs, and messaging to manage, treat, and prevent all types of diabetes and the complications from diabetes.
- (4) The development of and revisions to detailed action plans for preventing and controlling diabetes and related complications. The plans shall identify proposed action steps to reduce the impact of diabetes, pre-diabetes, and related diabetic complications; identify expected outcomes for each action step; and establish benchmarks for preventing and controlling diabetes.
- (5) A detailed budget identifying needs, costs, and resources required to implement the plans identified in subdivision (4) of this subsection, including a list of actionable items for consideration by the Committee. (2013-192, s. 1; 2014-100, s. 12E.7.)
